U.S. DEPARTMENT OF JUSTICE

As you can see by the enclosed memo from Thomas Cavanagh to me, this plant (McWhorter) is no longer owned by I.M.C. and has not been for quite some time. The reason Mr. Terry Hein has applied for a permit for disposal of I.M.C.'s waste material from this plant is that he doesn't know about the ownership change. The reason he knows nothing about the new ownership is because he has not called us, nor has he obtained a waste sample from us, nor have we contacted Mr. Hein or shown any interest in doing business with Wastex Research, Inc. It would seem that Mr. Hein is taking a lot for granted and is not conducting his business in an orderly manner.

I believe that at one time I.M.C. did do business with Wastex, however, neither The Valspar Corporation nor myself would even consider doing business with a fly-by-night operation like Mr. Hein's.

Sincerely,

McWHORTER, INC.
